PROFILE

Full-Stack Developer with professional experience across Angular and TypeScript applications and contributions to Node.js services, API gateways and data/infrastructure tooling within a multi-service conversational AI platform. Experienced with REST and real-time integrations, SQL and NoSQL data stores, automated testing and containerized CI/CD environments. Builds reliable, maintainable features across client, API and delivery boundaries.

EXPERIENCE

Software Engineer · AgentifAI	Nov 2025 - Present
- Built Angular and TypeScript product features while contributing to Node.js real-time services, API gateway and outbound service repositories within a multi-service platform. - Delivered REST, Socket.IO and SIP/WebRTC integrations and worked with platform data flows backed by MySQL, MongoDB and Redis. - Implemented lifecycle, versioning, dependency and authorization workflows across application and service boundaries. - Improved production performance and reliability by resolving race conditions, socket and memory leaks, stale state, redundant requests and rendering inefficiencies. - Strengthened delivery with automated tests, pre-commit validation and Bitbucket CI while working in Docker, Kubernetes and GCP environments.	
Junior Developer Intern · New Knowledge Advice	Apr 2025 - Oct 2025
- Customized and maintained SuiteCRM business application functionality using PHP, Angular and SQL. - Supported Docker and Nginx environments and troubleshoot application infrastructure and SMTP/email-delivery issues.	
Doctoral Researcher · University of Minho	Sep 2019 - 2024
Led quantitative biotechnology research and communicated complex technical findings to specialist audiences.	

TECHNICAL SKILLS

Frontend	Angular 18, React, TypeScript, JavaScript, HTML5, CSS3/SCSS, RxJS, NgRx, Angular Material/CDK, Nx
Backend & APIs	Node.js, Java, FeathersJS, Express, REST, Socket.IO, OpenAPI, SIP/WebRTC
Data	SQL, MySQL, MongoDB, Redis, schema migrations and versioning
Cloud & Quality	Docker, Kubernetes, GCP, Nginx, Git, Bitbucket Pipelines, Agile/Scrum, Jest, Jasmine, Karma, Vitest

EDUCATION

Computer Science · Front-end Development	CESAE Digital, Porto · 2024-2025
PhD in Biotechnology	University of Minho · 2019-2024
MSc in Biotechnology · BSc in Biotechnology	University of Minho · 2011-2019
