EXPERIENCE

Software Engineer · AgentifAI

Nov 2025 - Present

- Built interfaces for a conversational AI platform supporting major banking and healthcare institutions, enabling voice and text interactions, agent workflows, ticketing, campaign management and analytics.
- Built configurable flow-builder capabilities and user-facing tools that let teams adapt conversational workflows to each client's operational needs.
- Contributed across a multi-repository product ecosystem spanning customer-facing applications, platform services and shared tooling.
- Improved maintainability and governance through refactoring, versioning and route-level access controls, making lifecycle and permission handling more consistent across connected applications.
- Delivered real-time workflows and front-end integrations that support reliable voice and text interactions, using Socket.IO, REST APIs, SIP/WebRTC, audio visualisation, progress tracking and concurrency controls.
- Improved production performance and reliability by resolving race conditions, socket and memory leaks, stale state, redundant requests and rendering inefficiencies.

Junior Developer Intern · New Knowledge Advice

Apr 2025 - Oct 2025

- Customized SuiteCRM functionality with PHP, Angular and SQL.
- Supported Docker and Nginx configuration across local and remote environments, including SMTP troubleshooting.

Doctoral Researcher · University of Minho

Sep 2019 - 2024

- Conducted biotechnology research through experimental design, quantitative analysis and scientific documentation.
- Managed long-term work and communicated complex technical findings to specialist audiences.

TECHNICAL SKILLS

Front-end core Angular, TypeScript, JavaScript, NgRx, RxJS, Angular Signals, Angular Material/CDK, SCSS, HTML5, Nx

Architecture & integrations Microfrontends, REST APIs, Socket.IO, RBAC, event-driven workflows, accessibility, internationalization

Quality & delivery Git, Docker, Bitbucket Pipelines, pnpm, Husky, ESLint, Prettier, Jasmine, Karma, Jest, Vitest

Additional experience React, Next.js, Node.js, FeathersJS, Koa, Express, FastAPI, PHP, Laravel, SQL, Redis, MongoDB, GCP, Kubernetes, Terraform, CodeMirror, TipTap, SIP.js/WebRTC

EDUCATION

Computer Science · Front-end Development

CESAE Digital, Porto · 2024–2025

PhD in Biotechnology

University of Minho · 2019–2024

MSc in Biotechnology · BSc in Biotechnology

University of Minho · 2011–2019
